Make Data Practical In Three Steps

My personal story ...

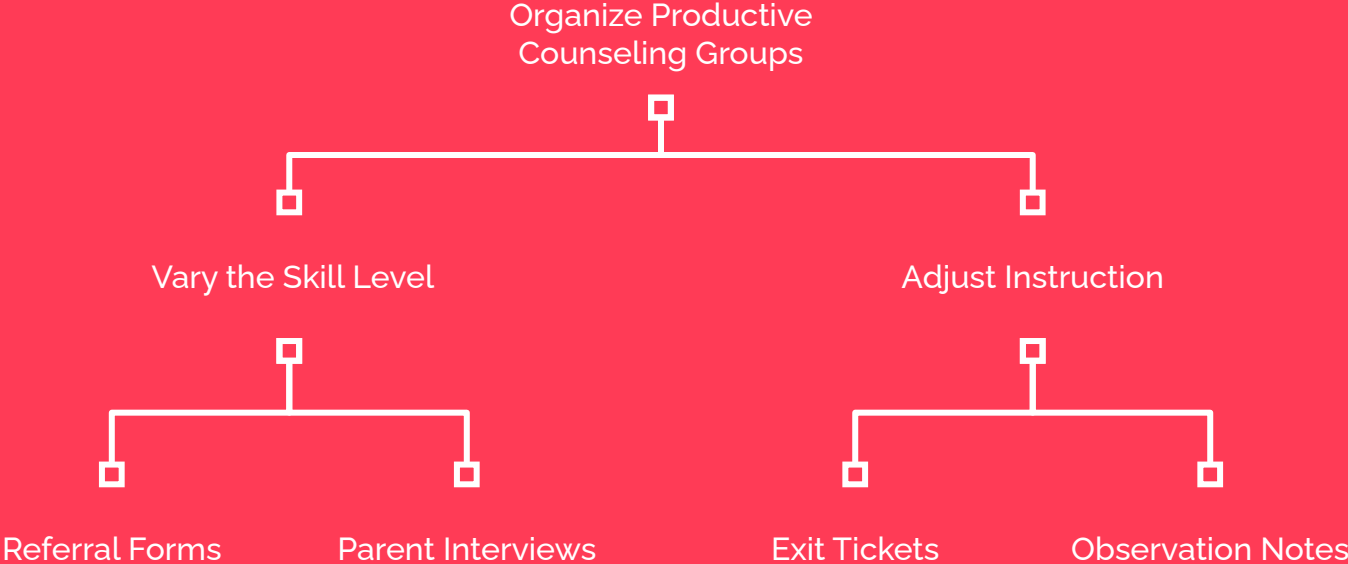

Make Data Practical With Three Questions

1. What's your job?
2. What are your important decisions?
3. What data support those decisions?

Job Duty, Key Decisions, and Data

Example for Counseling Groups

Activity (Seven Minutes)

Write down one job duty.

Write down one important decision for that job duty.

Write down one source of data that guides that decision.

This week:

As you go about your work, identify a data source that aligns with daily or weekly decisions.
